TBU SYMBOLS

TBU Symbols

The symbols of TBU in Zlín comprise a mark, sign, insignia, gowns, an embossed seal, a motto and a flourish.

Mark and sign

(1) Mark

The TBU mark consists of a stylized symbol of a book and of the University's name. The symbol is a simple graphic image of a standing book (viewed from above), whereas the orange area - Pantone 1585, 1585 C (black or grey) - depicts the cover and spine of the book, the white area represents papers of the book. The whole composition is completed by a wedge-shaped shadow thrown by the book (always in the same colouring as the book cover), which completes the format in the upper part of the mark.

The design was inspired by the functionalist architecture of Zlín - its typical simplicity and sense for maximum practical use of space.

The finishing touches were put by the text on the right hand side. It bears the name of the University, its component part or Faculty. The text written in Berlin CE Regular font is left aligned.

(2) Sign

The TBU sign represents a more solemn version of the mark. The symbol of the book is placed in the centre of a circle, the perimeter of which is lined by the University's name in Latin UNIVERSITAS THOMAE BATA ZLINENSIS in the upper part and by the University's motto ERUDIRE ET CREARE in the lower part. The texts are written in upper-case letters in Berlin CE Medium font. The blank space between the University's name and the motto is filled up with a square-shaped point.

Insignia

The TBU insignia comprise a mace and chains.

(1) Rector's mace

The Rector's mace consists of a shaft and a head. The base of the head is a massive circle. There is an open book on both sides in the upper part of the mace. The book is a starting point for relief streams which head diagonally into four directions.

The book represents traditional historical forms of education, the streams covered by symbols and structures represent contemporary and future forms of communication and educational systems.

There is a grey-blue agate placed obliquely in the middle of the circle. The grey-blue agate is honed into a shape of an irregular cube and the university maxim ERUDIRE ET CREARE is engraved separately on both of its sides. The sign UNIVERZITA TOMÁŠE BATA VE ZLÍNĚ is written on the front side of the circle; on the back, there is the English version TOMAS BATA UNIVERSITY IN ZLIN.

The head is divided from the shaft by two flat discs. The bigger one contains dark blue enamel on the upper side. In combination with the yellow metal of the mace, it represents the town colours of Zlín. Other discs are divided by a smooth shaft, which contains a coil in the middle. This enables to divide it into two parts.

The length of the mace is 119 cm, it is made of gilded brass.

Its author is the sculptor Michal Vitanovský. The mace was made by the studio Ateliér TIP, Prague.

(2) Rector's chain

The Rector's chain consists of the body of the chain - catena and of a hanging medal. The double-sided and stamped medal is 80mm in diameter, and bears a portrait of Tomas Bata en face and an unclosed writing UNIVERZITA TOMÁŠE BATA VE ZLÍNĚ on the obverse side. In the upper part of the reverse side, there is a stylized view into the full University Assembly Hall, in the lower part there is the town emblem of Zlín with the inscription: 1. 1. 2001.

The chain - catena is made of three types of stamped parts with simple non-figural relief. The central part with the hanging medal defines the chain expansion. The chain also contains two types of chain parts - circle and square, which regularly alternate and are connected with little circles.

The Rector's chain is made of gilded silver.

Its author is the sculptor Michal Vitanovský. Mintage and assembly were made by Štátna mincovňa (Mint), Kremnica, Slovakia.

(3) Vice-Rector's chains

The only difference between the Vice-Rectors' chains and the Rector's chain is the material used. The Vice-Rectors' chains are made of silver.

Its author is the sculptor Michal Vitanovský. Mintage and assembly were made by Štátna mincovňa (Mint), Kremnica, Slovakia.

Gowns

Gowns are designed in a confluent silhouette with a red base colour and are worn by the following academic dignitaries: Rector, Chairperson of the TBU AS and Vice-Rectors. The gowns of the Bursar and of the Director of Marketing and Communications have a blue base colour.

The gowns are colourfully accented with a stripe and trimming of the sleeves. Their colours are contrasting with the base colour. They accentuate the majesty of the silhouette and the ceremonial character of the whole.

Gown colours:

Rector	red and golden
TBU AS Chairperson	red and blue
Vice-Rectors	red and grey
Bursar	blue and red
Director of Marketing and Communications	blue and grey
Beadle	blue

The same colours are used for headdresses.

Embossed seal

The embossed seal is based on the TBU sign. The text along the perimeter was replaced (both visually and according to the number of letters) by a series of 36 short beams in the shape of the capital letter I. The embossed seal is made of a negative steel die. This seal is used for signing documents and verifying their authenticity. Furthermore, the seal can be used in personal correspondence of the Rector and Deans. It improves the visual quality of the message and gives a formal character to the correspondence.

Motto

The motto of TBU is **ERUDIRE ET CREARE** in Latin, which means **EDUCATE AND CREATE** in English.

It expresses the University's brief credo, which TBU follows and adheres to. The motto can be used as one of the University's symbols on solemn occasions.

Ceremonial flourish

Academic ceremonies are accompanied by a ceremonial flourish.

Symbols of TBU component parts

The symbols of the component parts are described in the Statutes of the relevant component parts. They comprise the mark, insignia and gowns of the relevant component part.

Marks of TBU component parts

The marks of the individual component parts imitate the TBU mark with the exception of the colour of the book symbol. Each of the component parts has its own colour of the book symbol. The text contains the name of the relevant component part and the affiliation with TBU.

Colours of the marks of the component parts:

TBU CODE OF ETHICS

Part I

General principles and approaches adopted by TBU

In compliance with the European Charter for Researchers and with the Code of Conduct for the Recruitment of Researchers, TBU applies the following principles based on the above-mentioned European regulations to all employees:

1. Employees of all categories are recognized as professionals and are treated accordingly.
2. TBU avoids discriminating against researchers in any way on the grounds of gender, age, ethnic, national or social origin, religion or belief, sexual orientation, language, disability, political opinion, social or economic condition.
3. TBU ensures that the most stimulating educational and research environment is created, and offers appropriate equipment, facilities and opportunities, particularly for remote collaboration over research networks, and ensures that the national or sectoral regulations concerning health and safety in research are observed.
4. TBU ensures that the working conditions for employees, including disabled employees, provide, where appropriate, the flexibility deemed essential for successful performance of work activities in accordance with the valid national legislation and with the Collective Agreement. The aim is to provide working conditions which allow both male and female employees to combine family and work, children, and, at the same time, develop their career.
5. TBU ensures that the performance of employees is not undermined by instability of employment contracts, and, therefore, commits itself as far as possible to improving the stability of employment conditions for employees, thus implementing and abiding by the principles and terms laid down in the EU Directive on Fixed-Term Work
6. TBU continuously creates a gender balance at all levels of staff, including the supervisory and managerial level and including equal remuneration for the same type of work carried out. This balance is achieved on the basis of an equal opportunity policy at recruitment and at the subsequent career stages without, however, taking precedence over quality and competence criteria.
7. TBU ensures that all employees at all stages of their career, regardless of their contractual situation, are given equal opportunities for their career development and for an improvement in their skills and competences.
8. TBU ensures that academics and researchers at all career stages reap the benefits of the use of their R&D results through legal protection, in particular through appropriate protection of intellectual property rights, including copyright.
9. TBU ensures that a person is clearly identified whom early-stage employees can contact regarding issues concerning the performance of their professional duties.
10. In compliance with national rules and regulations, TBU pays attention to a precise specification of appropriate procedures, and has, furthermore, appointed an impartial person (ombudsman) to deal with complaints/appeals of employees.
11. TBU recognizes it as wholly legitimate, and indeed desirable that researchers be represented in the relevant information, consultation and decision-making bodies of TBU so as to be able to protect and support their individual and collective interests as professionals and to actively contribute to the activities of TBU.
