

Appendix 3 to Rector's Directive SR/22/2019

Calculation of effectiveness of an IGA project (EP):

$$EP = \frac{WPP}{F}$$

where WPP is the number of work performance points of the output of the evaluated project. The number of WPPs shall be specified in accordance with the valid Rector's Directive **“Evaluation and Management of the Development of Teaching, R&D and Creative, Managerial and Other Activities of TBU Academic Staff and Researchers”** and related internal regulations issued by relevant component parts. F is the total amount allocated to the project implementation (in thousand CZK).
