

## SELF-EVALUATION REPORT MODULE 3

---

**EVALUATED UNIT: Faculty of Technology**

**Appendix D. Overview of businesses involved in summer traineeships**

<b>Company name</b>	<b>Thesis topic</b>
Nobilis Tilia s.r.o.	Emulsifying systems in certified natural cosmetics
	Preservation systems in certified natural cosmetics
	Preparing cosmetic emulsions using natural emulsifiers
Mondeléz CR Biscuit Production s.r.o.	Alveographic flour measurement
	Milky and bitter topping – Measurement of viscosity and DSC
EVERSTAR s.r.o.	Waste and environmental issues in cleaning and degreasing
	Alternative and future trends in professional cleaning
	Quality control methodologies regarding metal material cleaning as part of metal finishes
	Alternative and future trends in industrial cleaning and degreasing of metals
Austin Detonator s.r.o.	Selection of a thermoplastic elastomer (TPE) for the spraying of seals of electric detonators
Continental Barum s.r.o.	Material consolidation (SW “BIRT”) – efficient use of semi-finished products
	The effect of the surface of silica on its useful properties
	Complexity and its impact on production efficiency
	Quality of internal separating sprays for the lubrication of raw tyres and membranes
Maxion Wheels Czech s.r.o.	Preparation of training materials for 6S Green Belt Training
KALINA industries s.r.o.	Design of a sealing and technical preparation of manufacture of a product
Olympus Medical Products Czech spol. s r.o.	Preparation and cooperation as part of implementing the MES production monitoring system
	Design and reconstruction of production tools
	Analysis and draft method of standardising production lines
	Manufacturing process validated in accordance with international standards
