

Calculation of effectiveness of an IGA project (EP):

$$EP = \frac{WPP}{F}$$

where WPP is the number of work performance points of the output of the evaluated project. The number of WPPs shall be specified in accordance with the valid Rector's Directive "Evaluation and Management of the Development of Teaching, R&D and Creative, Managerial and Other Activities of TBU Academic Staff and Researchers" and related internal regulations issued by relevant component parts. F is the total amount allocated to the project implementation (in thousand CZK).
